	Delta Finochem Pvt Ltd	DOC NO : DFPL/ENV/01
	ENERGY AND GHG POLICY	REV NO : 1.0
		DATE : 12/07/2022

DeltaFinochem is committed to continuously improving our operations while reducing energy costs. We strive to achieve sustainable growth by improving efficiency and creating a safe and comfortable work environment in all our operations.

DeltaFinochem mission is to promote dual potency regimens while ensuring exceptional pharmaceutical efficiency. Focusing on our energy use and efficiency to achieve reductions in energy consumption and costs and to create a culture of awareness of its use.

### OUR MISSION

- To become the most energy-efficient company among pharmaceutical companies.
- Reducing energy consumption in all operations while contributing to our business objectives, including increasing products, quality, environmental leadership, and safety practices and reducing carbon emissions.
- Conservation of energy through engineering solutions rather than relying solely on human intervention.
- Explore higher use of renewable energy sources while meeting our energy demand.
- Utilization of energy as per the norms in all sections of premises by specified time frame.
- Procuring energy at the required cost and reducing energy consumption wherever possible while establishing business objectives.
- Ensuring that all staff, customers, and suppliers are aware of DeltaFinochem energy management policy and are motivated to conserve energy.
- Aim for the reduction in Green House Gases (GHG) emission (Scope 1 & Scope 2) as the minimum through driving GHG reduction program towards the de-carbonization goal.
- Complying with all applicable legal and other requirements relating to the organization's energy use, consumption, and efficiency.

## RESPONSIBILITY

Head of HR/ Environment will be solely responsible for execution and implementation of this policy.

This energy management policy is reviewed and updated as and when necessary to consider changing business conditions and to ensure opportunities for continuous improvement.

SANDEEP DESHMUKH
